2023/2024

EM Strasbourg Business School's European Roots

EM Strasbourg's Mission

Located in the heart of Europe and in the capital of humanism, EM Strasbourg Business School educates responsible, agile managers and leaders with a European mindset, ready to tackle organizational challenges through an impact-driven management style.

At EM Strasbourg Business School, the only Grande Ecole de Management in France to be part of an internationally recognized university, we produce impact-driven academic research to support the transformation of organizations in our ecosystem.

EM Strasbourg at the Heart of Europe

Given its European roots and geographic location—in the capital of Europe, it is only natural that EM Strasbourg offer its students unique courses and experiences with intercultural and European flair: more than 110 European partner universities; French-, English-, and German program tracks; dual degrees; specific courses; visits; conferences, etc.

CLUE: Teaching Global Awareness through a European Lens

To strengthen its distinctive European character, EM Strasbourg launched CLUE—a core set of courses and learning activities. Since 2018/2019, CLUE has been an integral part of the Bachelor's, Grande École, and Master's Program.

CLUE allows students to acquire intercultural and language skills while deepening their knowledge of Europe, its values, and how its institutions function.

Testimonials

“At EM Strasbourg, we produce responsible leaders with a European mindset. So, what better place than the vibrant heart of European democracy to soak it up?”

Enrico Prinz,
Vice Dean

“This conference-debate on the challenges of climate change in Europe is fundamental for students since we will be future managers. It will enable us to enhance the climate strategy of companies to uniquely position them in the European market.”

Student in the Master of European Management Studies

“Being the business school of the capital of Europe is a position that legitimizes us and obliges us to include a European mindset in the very DNA of the School. It's a pillar of our vision and mission. It's something that guides our teaching and research to embody the values of Europe and above all to reflect them and to be able to further our ideals.”

Babak Mehmanpazir, Dean
