The Corporate Chair “Wine and Tourism”¹, EM Strasbourg Business School, and the University of Perpignan *Via Domitia* co-organise the 4th International Research Workshop on Wine Tourism and Agrifood “Transitions and Resilience” with the support of the French Association of Tourism Management (AFMAT)² affiliated to the French Foundation of Management Education (FNEGE)³. The International Research Workshop is designed to gather both wine and tourism researchers and professionals to discuss the current challenges for the international wine tourism and agri-food industry and delineate their future directions.

The International Research Workshop will take place in the **Roussillon region, Perpignan, France, on 15 - 17 October 2025.**

The Corporate Chair “Wine and Tourism” is pleased to invite you to submit proposals for presentations focused on the current and future challenges facing the wine and agri-food sectors. This event will explore how these industries are adapting to shifting environmental, economic, and social dynamics, and discuss strategies for building resilience in the face of climate change, market fluctuations, and changing consumer expectations.

This event aims to bring together researchers, practitioners, and professionals to explore key topics such as wine tourism, food sovereignty, agricultural transitions, and the resilience and sustainability of viticulture and tourism in our regions.

Taking place over two days, the workshop features roundtable discussions and immersive experiences. Researchers, industry professionals, and practitioners will come together to share insights on sustainable practices, the role of innovation in enhancing resilience, and the broader impact of these sectors on local economies and food systems.

The International Research Workshop calls for research papers investigating topics related (but not limited) to the following topics:

- Customer segmentation
- New consumer behaviors
- Consumer preferences and environmental awareness in wine consumption
- Experience design and visitor engagement
- Marketing strategies and innovation
- Sustainable production and environmental challenges
